

## The Nottingham Park Estate Limited

### Nominees Resumes

#### **Linzi Janice Kemp**

*Having been proposed by Nicole Hunter.*

Nearly a decade ago, The Park was suggested to me as a prospective home. Initially observed was beauty, tranquillity and history for residents and visitor's enjoyment. Then, 'due diligence' about estate management and subsequently, the house purchase. Followed by learning about NPEL achievements; To contribute to those improvements in our lived environment is why I would like to be elected to the Board.

I am your neighbour living at Park House, 14 Cavendish Crescent North. Hope you enjoyed my article in 'Park News' as contribution to our heritage, and also the sharing of intel. about Park houses via 'Nottingham Park Residents Association'. Recently, a volunteer for the NHS voluntary service during this Covid-19 emergency and also campaign lead for the Women's Equality Party -Nottingham. Hobbies include running (slowly), swimming (frequently) and tapestry (ardently).

Having previously worked in private and public sectors, as a manager and administrator, I have been an international academician (Professor) for most of my career; lecturer; service on university councils/committee; researcher.

My field of expertise is in organisational behaviour (people, processes, systems) and I aim, through your vote, to contribute the value of that business knowledge to the NPEL.

#### **Andreas Liesche**

*Having been proposed by Alex McIntyre.*

As a long term (14 years) resident of The Park, I truly appreciate what a special place it is. I am not aware of any other place in the country that offers the same perfect mix of a convenient central location with the tranquillity, history and sense of community of The Park.

My reason for wanting to become a Director is to be able to work with the other Directors and our collective neighbours to ensure that the matters that affect our day-to-day enjoyment of The Park are protected and managed effectively. In particular, my area of interest is the preservation and presentation of original architectural features (such as sandstone walls, signage, gas lighting, railing, etc.) and the impact of modern lighting within the estate.

As a business owner, I have relevant experience of running organisations and working with people to achieve common goals. My area of expertise is property and asset management and I have a track record of over 23 years of working with consultants, contractors, occupiers and clients within this field. My specific skills relevant to this directorship include efficient service charge management, contractor management and compliance.
